Industry: Medical/Dental

Location: 1525 W. Colonial Dr. Orlando, FL 32804

Size: 3,300 SF

Service: Design Build

Source: Client Referral

Structure: Masonry

Located on Colonial Drive, Koyfman Dental's 3,300 square foot dental office is the envy of the neighborhood. The modern architecture has sleek lines throughout and lots of windows creating a very inviting space.

DL Harkins worked with dordevic Architecture on the design and provided Construction Management, for this ground up facility, that included demolition of the existing structure. The contemporary dental facility has the following features: a nicely appointed waiting room, two hygiene stations, seven operatory stations, one breakroom, full laboratories, consultation area and a private Doctor's office.
